How to use Reli's Pao Mbao as an Education tool

The moderator should come up with 20 questions related to the topic to be taught or reinforced. The questions should be divided into two, 10 for each color.

Penalty shootout

After regular time or extended play time ends, the points of each player are recorded and the discs returned to each player. The players decide by the flip of a coin who will start the penalty shootout. The player who starts turn over one of his/her discs and reads out the number. The moderator reads out the corresponding question which the player should answer in 30 seconds. A correct answer earns two points. If the answer is not correct, the question goes to their opponent for one point. Points are added and the player with the highest score wins the game. 😊
